Neighborhood Greenways are low-speed, low-volume, shared-space streets that create high-comfort walking and bicycling connections for you and your neighbors.

What is a Neighborhood Greenway?

Neighborhood Greenways are low-speed, low-volume, shared-space streets that support high comfort walking and bicycling connections. Our 2019 Transportation Plan designates several City streets for the design and installation of Neighborhood Greenway facilities as part of the Priority Bicycle Facilities Network. To design and install Neighborhood Greenways, the City follows the Staff-led Traffic Calming and Neighborhood Greenways process.

For information on the Traffic Calming and Greenways process visit:
www.bloomington.in.gov/tcgp
For information on the Bloomington Transportation Plan visit:
<https://bloomington.in.gov/transportation/plan>

What should I expect?

Neighborhood Greenways are an important component of the community's plans to support an improved quality of life and connectivity. Past Neighborhood Greenway projects have shown an increase in the number of people walking, rolling, and bicycling in the area.

To prioritize multi-modal transportation, this project will link S Olive St with S Weatherstone Ln to improve street crossings across E Hillside Dr for all vulnerable street users.

Check out the Neighborhood Greenway video that has examples from Bloomington's first greenway projects:

Project Timeline

1. **Informational Neighborhood Letter**
2. **First Meeting: Project Scope & Objectives:**
Wednesday, August 16th (Details Below)
3. **Second Meeting: Design Review & Feedback:**
Wednesday, August 30th
4. **Open Comment Period: Open Now**
5. **Bicycle and Pedestrian Safety Commission Review**
6. **Installation: Spring 2024**

How to Stay Involved

Submit Feedback to the Open Comment Form: Details posted on <https://bloomington.in.gov/engineering/projects/hillsideweatherstone>

Attend a Public Meeting:

Wednesday, August 16, 2023
Drop-In 4:30 - 6:00pm
Hillside/Weatherstone Intersection
Rain Date Scheduled for Thursday, August 17 at 4:30pm*
