Engineering Services for Summit District Transportation Improvements

Initiating Department:

City of Bloomington Engineering Department

Date Issued:

June 11, 2026

Deadline for Submittals:

June 18, 2026; 5:00 PM local time

Submit Additional Questions To:

Michael Labitzke, P.E.

Project Engineer

michael.labitzke@bloomington.in.gov

Question #1

Now that the Tapp Road intersection might be getting federal funds and will have a schedule change, I was hoping to get clarification on the other two pieces of this project.

Are you hoping the Weimer realignment can still be let as a stand alone project in April 2027? This is assuming this piece does not get any federal funding.

Are you still wanting the Bloomfield intersection improvements to let in April 2028?

Answer #1

For the purpose of this submission, please keep the other two projects on their original requested schedules.
